9. The total number of acres remains 22,455. The District has not increased the total number of acres under these appropriations.

10. Only the tracts of land depicted on map number 17536 and described in attachments A, B, C, D and E of this Order may be irrigated from this date forward unless there has been a transfer of appurtenant land by the District in accordance with *Neb. Rev. Stat.* §§ 46-2,127 through 46-2,129.

11. The Department may deny the District the right to deliver water for a growing season for failure to file a transfer report by April 1 of each year in accordance with *Neb. Rev. Stat.* §§ 46-261(2). In the future, if the District transfers appropriations from one canal to another, it must also file with the Department a relocation petition for the portion of the appropriations transferred. If the relocation is approved, the amount of natural flow transferred must be proportional to the acres transferred as compared to the total acres under the appropriation for the originating canal before the transfer.

[36] Supplemental storage water irrigates land under natural flow appropriations. The Bureau of Reclamation District holds the supplemental storage use appropriations on behalf of Bostwick Irrigation District.

12. For any future transfers, appropriations for natural flow and storage use associated with the land from which the transfer is made, if for irrigation, must be conveyed to an equal number of acres. As a result of such transfers, there shall be no increase in the total number of permitted acres (22,455) under all appropriations listed in this Order.

13. The appropriator must comply with all relevant statutes. The statutes currently include, but are not limited to, the following:

    A. Notify the Department of any change in ownership or address.

    B. Notify the Department of the name and address of the person responsible for the use of the water appropriation.

    C. Obtain approval from the Department prior to taking any action that changes the location of the point of diversion, the location of the place of use, the type of use, or the type of appropriation.

14. Unless expressly changed by this Order approving application MAP-1880 and map number 17536, all other terms and conditions of previous permits, notices, Orders or any extant contracts such as the Platte-Republican Resources Area Conservation Reserve Enhancement Program (CREP) regarding the surface water appropriations held by the District for the benefit of the owners of the appurtenant land remain unchanged.

ADDITIONAL INFORMATION

Failure to comply with all laws and regulations pertaining to surface water appropriations, any Orders issued by the Director of the Department of Natural Resources, or the conditions of this transfer and map approval and associated permits may result in cancellation of the appropriations listed in items four through eight above or denial of the right to deliver or use water.
