DEPARTMENT OF NATURAL RESOURCES

APPROVAL OF APPLICATION A-18875

WATER DIVISION 2-B

BACKGROUND

1. On February 17, 2012, John Goeller, on behalf of G & M Grantor Trust Under Date of March 18, 2009, filed in the Department of Natural Resources (Department) application A-18875 for a permit to impound water, application for approval of plans for dams, specifications and plan P-18111.
2. On February 23, 2012, John Goeller, on behalf of G & M Grantor Trust Under Date of March 18, 2009, filed DWV-2279, a petition for a waiver of drawdown requirement.
3. Construction has been completed.

ORDER

IT IS HEREBY ORDERED Application A-18875, the Application for Approval of Plans for Dams, DWV-2279 and plan P-18111 are APPROVED subject to the following limitations and conditions:

1. The source of water is a tributary to the Elkhorn River.
2. The priority date is February 17, 2012.
3. The amount of water that may be diverted shall not exceed 34 acre-feet per year to be stored in Goeller Recreation Reservoir. Goeller Recreation Dam is located in the NW $\frac{1}{4}$ of Section 26, Township 23 North, Range 3 East of the 6th P.M. in Stanton County.
4. *Neb. Rev. Stat. § 46-241(5)* states in part, "The owner or possessor of a reservoir or intentional underground water storage facility does not have the right to store water in such reservoir or facility during the time that such water is required in ditches for direct irrigation or for any reservoir or facility holding a senior right. Every person who owns, controls or operates a reservoir or intentional underground water storage facility, except political subdivisions of this state, shall be required to pass ... a portion of the measured inflows to furnish water for livestock"

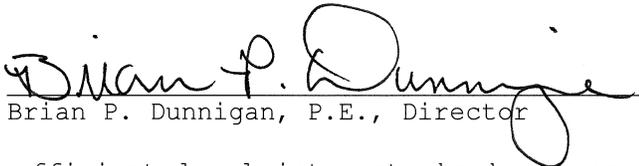

5. The owner or possessor of the reservoir storing water pursuant to A-18875 shall have structural controls in place or other mechanical means to immediately release a portion of the measured inflows in such amounts and at such times if so ordered by the Department.
6. A waiver of the requirement for a drawdown, DWV-2279, has been granted. This waiver does not relieve the owner from the responsibility to pass a portion of the reservoir inflow by some method for downstream appropriators should there be a need for water administration; or if water should be required for livestock needs, unless the appropriator is a political subdivision. The Department may rescind the waiver and require installation of appropriate outlet works at a later date if it is determined that the responsibility to pass inflows is not being met or cannot be met by another method.
7. The appropriator must comply with all relevant statutes. This includes, but is not limited to, the following:
 - A. Notify the Department of any change in ownership or address.
 - B. Receive approval prior to taking any action that changes the storage capacity of this reservoir, the specifications, plan P-18111, or the type of appropriation.
 - C. Construct, operate and maintain the structure in accordance with *Neb. Rev. Stat. § 46-241* and the *Safety of Dams and Reservoirs Act*, §§ 46-1601 to 46-1670.
 - D. Assume liability for all damages due to leakage, overflow or structural failure of the structure.
 - E. Release a portion of the reservoir inflows for livestock where required, unless appropriator is a political subdivision.

ADDITIONAL INFORMATION

Failure to comply with all laws and regulations pertaining to surface water appropriations and any orders issued by the Director of the Department of Natural Resources may result in the cancellation of the appropriation, temporary closing of the appropriation, administrative penalty, criminal prosecution, or any combination thereof.
