

This spring, rivers will break their banks. **Don't let them break yours.**

Just one inch of water can cause more than \$25,000 in damage to your home, and with unpredictable spring flooding, properties inside and outside of high-risk flood areas are at risk. With warmer spring months around the corner, don't wait until it's too late: **get flood insurance now.**

Most homeowners and renters insurance policies do not cover flood damage, and flood insurance policies don't automatically renew. Call your insurance agent today, or learn more at **FloodSmart.gov.**
